Details: It takes about 30 minutes to set up at party's and 30 minutes to disassemble and pack away. Will fit in small compact car. At vendor events we charge \$3 per player (\$5 for 2 players). Games last 3-5 minutes. At 6 hr vendor event we average \$500 to \$750 a day. For 3 hour birthday parties we charge \$250 for 6 robots, 1 host and I sell quite a few kit at parties. Any leads booked through our website will be assigned to you. You keep all the money that is charged minus the 3% CC fee. You can also purchase additional kits at a 30% discounted price to sell at events. 8 hours virtual training included

How I built this business in my local area: I live in a small town 1.5 hrs out of Portland Oregon. My town was giving me enough business on the weekends with fairs, birthday parties and other various vendor events. I wanted to grow it and be able to go further out so I rented 3 small storage units in Portland for \$40 each and hired a couple of entrepreneurial high school girls with a car a DL to run events. I now make \$4k plus every month after expenses.
