**\$50: Robot referee** per hour with party pack rental. **Looking to host a competition.** Meet our robot avatar “Ernest” who is controlled remotely anywhere around the world. Kids will think it is an AI robot but it is actually one of our fun coordinators controlling the virtual robot with face, eye, speech & body movement sensors talking through a voice synthesizer with many voices to choose from. Your coordinator will energize the crowd, organize the fights, keep score on a bracket system and present awards. More avatars coming soon. Ask about a demonstration.
